

Engage with Our Interns — Take the Informed Turn.

Host a **BSc (Hons.) Data Science & AI Intern** from **IIT Guwahati's flagship online degree program.**

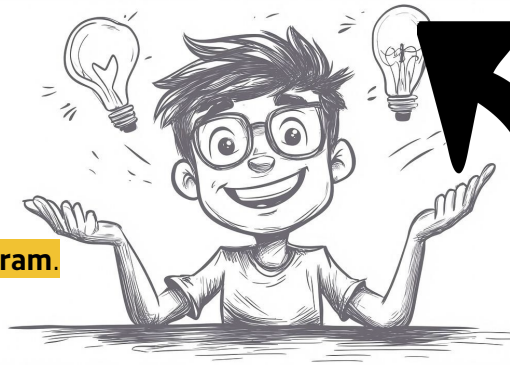

Trained. Evaluated. Ready to take the deep dive.

What Our Interns Bring

- Completed at least 24 core data science and AI courses over 2 years, taught by IIT Guwahati Faculty (Check full curriculum at: https://iitg.ac.in/acad/admission/online/Bsc_DSAI_Curriculum.pdf)
- Skilled in Python, SQL, R, Java, ML, AI, Visualization, and more.
- Ready to assist in data analysis, automation, prototyping, dashboarding, and more.
- Can work independently or with teams in real-world settings, online or onsite

Internship Logistic Highlights

- 12-week internships in each term
- Schedule aligned with IITG's online degree program calendar
- No evaluation load – IITG handles credit assessment via an independent viva-voce
- Flexibility to extend internships from 3–9 months, across terms
- Option to offer capstone projects, leading to an additional 12 months engagement

Who can Host

- Startups, SMEs, large organizations/industry
- Academicians from around the world
- Ideal for tech, analytics, product, and R&D team

How to Get Started
